

What is claimed is:

1. An article comprising a camouflage pattern, wherein said camouflage pattern comprises at least one image of an animal other than a bird or at least one image of a part of said animal.

2. The article of claim 1, wherein the animal is an insect.

3. The article of claim 2, wherein the insect is a flying insect.

10

4. The article of claim 3, wherein the flying insect is a moth or a butterfly.

5. An article comprising a camouflage pattern, wherein said pattern comprises at least one image of a flying insect or a part thereof, and at least one image of a plant or a part thereof.

6. A method for making a camouflage pattern, said method comprising:

20

(a) obtaining one or more digital images of at least one animal or part thereof; and

(b) creating a pattern with said images.

7. The method of claim 6, which further comprises contacting at least one article with said pattern or placing said pattern on at least one article or covering all or a portion of at least one article with said pattern.

8. The method of claim 6, wherein said pattern is printed on at least one article.

9. The method of claim 6, wherein said animal is an insect.

10        10. The method of claim 9, wherein said insect is a flying insect.

11. The method of claim 10, wherein said flying insect is a moth or a butterfly.

12. A method to aid in concealment of an article or person comprising:

(a) obtaining an article or person comprising a camouflage pattern

having at least one image of an animal or part thereof; and

(b) placing said article or person in an environment,

wherein said camouflage pattern aids in concealment of said person or

20        article in said environment.

13. The method of claim 12, wherein said animal is an insect.
14. The method of claim 13, wherein said insect is a moth.
15. The method of claim 12, wherein said method is used in the military.
16. The method of claim 12, wherein said method is used in hunting.
